

**Mr Mandla MAZIBUKO**

Mandla holds a Bachelor of Education (Adult Education) degree with a major in communication. He is the HIV/AIDS Program Manager for Save the Children Swaziland and is responsible for the organization's HIV strategy, research and programme development. He also networks with external stakeholders. He is a regional facilitator/trainer/mentor on Psychosocial Care and Support initiatives in Southern Africa.

He has 12 years experience in HIV/AIDS, Orphans and Vulnerable Children, and Health education programs' management. He is a facilitator for the Leadership for Results and Emotional Intelligence for HIV/AIDS work place programs. He has published a research paper on HIV/AIDS titled, "An investigation of the attitudes of rural Swazi men towards participation in HIV/AIDS educational programmes".

Mandla facilitates education, information, communication, training and guidance and counseling interventions; which is important his participation on the STFTAP.
