

Mr Patrcik Shabangu

Patrick holds a BA in Social Sciences. He also has several certificates in research and IT. He is Data Manager at the BCM-BMS Children's Clinical Centre of Excellence in Swaziland. Prior to joining Baylor International Pediatric AIDS Initiative network in 2006, he worked for BMS-STF Community Based treatment Support programme as M&E Officer and as a Research officer for POLICY Project based in Swaziland.

An IT specialist and Data Analyst, Patrick is responsible for the coordination of the full spectrum of IT services – designing of clinical database, software and hardware installations, maintenance, personnel training and support. He is also responsible for data management and execution of M&E activities.

His area of strength is database analysis, design and implementation. He is also competent in basic database programming and M&E framework development.

Patrick is a registered member of the Organisation for Social Science Research in Eastern and Southern Africa (OSSREA). His knowledge of database analysis, design and management will benefit the STFTAP's Monitoring and Evaluation efforts.
